ZAGLE POINT EAGLETS. By A. C. Howlett.

Last Saturday night we had one of the most interesting exhibitions that we have had for a long time. Professor Jo Singleton gave an exhibition in the gymnasium, a drill contest between the women and the men, and in addition to that was given a regular performance in the line of athletic sports. The first was a dumb bell drill by the women. The class numbered 10, but two were absent on account of the grippe. Those who took part showed they bad had a good teacher and that they had paid good attention to what had been taught them. They surely did fine. Then the women gave the men a challenge for a contest in a marching drill, and of course they were too gallant to decline to accept, and the result was that both sides did their A-1 by the audience, which consisted afternoon. of 150 or 175 persons, who watched cheering would be declared the vic- ple of Jacksonville. tor, and out of courtesy called for an S. One very important incentive that might have pects to have it completed by the had some influence was that in of. first of June. fering the challenge the ladies proinfluence in their decision.

After that was over the next performance was a running high jump for men. They started with the bar at three feet and kept raising it two inches at a time until it reached four the Mail Tribune recently it was feet and eight inches. By that time made to appear that Don Cameron of most of the Jumpers had dropped Jacksonville had been indicted for asout, but the contest waxed warm af- shult with intent to cimmit rape. The ter the bar reached four feet and article should have read Dan Camerfour inches, and it was raised only one inch at a time. Strong second, and Ray Harnish third. Bryant and Strong tied and they cast lots for the prize. it falling to Harry Bryant. Then tollowed an exhibition of punching the bag by Harry Bryant. The next was the seven potato race for men This was the most exciting part of the whole performance. The contest was not long, but snarp. The winners in the potato race were: Strong first, Fred Finley second and Rev. L. L. Simmons third.

We then had an exhibition on the bar by the ladies and they surprised the natives to see how well they performed their part. Then a series of performances on the bar by the men, but the crowning exhibition was the pull-ups on the bar by the men, lifting themselves, at arms length, and placing the chin on top of the bar every time. Among the first they went as high as 15 times, and then they would go a little more and finally William Wright placed his chin on the bar 20 times; then Ralph Owings and A. E. Strong tied at 18, when the contest ended by drawing lots to decide which should have the second place on the list and springs, 12e: dressed, 12@14e. the result was that Owings won the second place. There were four prizes offered for the best general performers, one gold and three silver, and the result was that A. E. Strong won the first, William Wright the second, Harry Bryant third and Rev.

L. L. Simmons the fourth. The contest was so close that it would have been impossible for one unaccuytomed to the gymnastic exercises to have decided, but the decision was made in conformity to the regular rules. I have made this article as short as I could to cover the ground already 150 pairs of eyes watching for it in the Eaglets.
